Guidelines for using the Nordic Swan Ecolabel in marketing materials for certified products
Congratulations on your certification. You have gone through great efforts to obtain a Nordic Swan Ecolabel for your product(s).

These guidelines have been created to help you as a brand owner and licence holder – as well as your agency or other partners – to use the Nordic Swan Ecolabel in marketing materials for your certified product(s).

This document is intended as a guide and reference tool. With the help of the table of contents, you can find the sections that are most relevant to you.

By using the Nordic Swan Ecolabel actively in your marketing communication, you not only get an official stamp of proof of your environmental efforts: you also get an effective marketing tool with a brand that enjoys high credibility and recognition, helping you to strongly position your product(s) towards consumers and professional buyers.

**Note!**
This guideline covers marketing materials for products with the Nordic Swan Ecolabel. Specific guidelines are available for:

- Use of the Nordic Swan Ecolabel mark on products and product packaging.
- Marketing materials for services with the Nordic Swan Ecolabel.

These guidelines are updated on a regular basis and replace earlier versions. The current version of the guidelines can be found at [www.nordic-ecolabel.org/regulations](http://www.nordic-ecolabel.org/regulations). Marketing materials that have been approved under previous versions can be used and distributed as long as stock is available.

Show consideration for the environment if you print this guide.

1.0 Make the most of your certification

1.1 A strong and effective marketing tool

A strong guide for more environmentally friendly choices
There is a high brand awareness among Nordic consumers and professional buyers when it comes to the Nordic Swan Ecolabel. They trust the label and use it to help navigate in a complex area because they know the Nordic Swan Ecolabel helps them make better environmental choices.

Businesses and policymakers face great opportunities to meet the needs of customers and consumers, and by developing and producing more sustainable products, businesses are greatly rewarded in terms of consumer preference and a supportive customer base.

The rules are few and simple, and the benefits are many when your brand taps into the strong position the Nordic Swan Ecolabel holds among Nordic consumers and professional buyers.
# 1.0 Make the most of your certification

## 1.1 Nordic consumers want to act

Nordic consumers are highly aware of the impact that their individual consumption has on the environment, and although the issues of climate change and environmental degradation can feel overwhelming, most Nordic consumers feel hopeful about the future.

They believe that they can make a difference by making better decisions and choosing better products and services. They want to be a part of the solution – to be better consumers by supporting brands and companies that offer sustainable products and services.

What they are lacking is easy access to attractive sustainable products and services.

### Looking for national data?

We conduct research on Nordic consumers and sustainable living on a regular basis. To learn more about our consumer research, please contact the marketing team at your local ecolabelling organisation. See contact information on page 3.

This section explains the important rules when using the Nordic Swan Ecolabel and messaging related to the certification.

General mark guidelines

• Four simple steps to get you started

Use of the mark

• Checklist for marketing materials
  • Key benefits of following the guidelines
  • The golden rule
  • Logo guidelines
  • Naming of products with the Nordic Swan Ecolabel
  • Messages related to the Nordic Swan Ecolabel

Responsibilities

• Disclaimer, responsibilities and misuse information
2.1 Four simple steps to get you started

1. Get the Nordic Swan Ecolabel mark artwork files

As a licensee or brand owner with an active certification for the Nordic Swan Ecolabel you will get access to download the Nordic Swan Ecolabel mark in various file formats.

The Nordic Swan Ecolabel mark is available in five Nordic language versions and an English version for international use. You can find the latest version of the mark at the website of your local ecolabelling organisation. See information on page 3.

2. Check that your eight-digit licence number is valid

Each Nordic Swan Ecolabel licence is assigned an eight-digit licence number.

The licence number must appear on the certificed product. To increase transparency and credibility, we recommend that you also include the licence number on your website and in marketing materials, where applicable (e.g. in small print as a footnote).

3. Place the mark correctly in your marketing material

Follow the rules in these guidelines when you place the Nordic Swan Ecolabel mark in marketing material.

Note!
Remember to check the criteria document for your specific product group to see if there are special requirements on the use of the mark and to find the specific marketing claims you can make.

4. Check that use of the mark is in compliance with the guidelines

Use the checklist on page 17 to ensure that the artwork complies with the guidelines.

If in doubt:
Send the proposed artwork to the marketing team at your local ecolabelling organisation. See the contact information on page 3.

Note!
Always consult the marketing team of your local ecolabelling organisation if you produce marketing materials for use outside the Nordics.

Attention

Do not use the mark if your licence has expired!
The right to use the Nordic Swan Ecolabel expires at the end of the licence period, when the licence becomes invalid or when the relationship between the licensee and the ecolabelling organisation ends in any other way.
2.2 Language version of the Nordic Swan Ecolabel

National or international mark?
The Nordic Swan Ecolabel is available in five language versions and an international version for use outside the Nordic countries.

For marketing in the Nordic countries, we strongly recommend using one of the national marks as the brand name “Svanemærket/Svanenmärkt/Svanemerket...” is very strong and has a high level of recognition in all Nordic countries.

Outside the Nordic countries, we recommend using the international mark.

Note!
The licence number does not have to be part of the mark when used in marketing materials, but to increase transparency and credibility, we recommend that you include the licence number on your website and in marketing materials eg. in small print as part of a footnote or in the product description.
2.0 General mark guidelines

2.3 Checklist for marketing materials

Use this checklist to ensure that your marketing material are in compliance with these guidelines.

Artwork approval
If this is the first time you are using the Nordic Swan Ecolabel in your marketing materials or if you are in doubt as to whether your marketing material meets the guidelines, we recommend that you – or your agency – send the artwork for approval to the marketing team of your local ecolabelling organisation. See contact information on page 3.

Note!
Always consult the marketing team of your local ecolabelling organisation if you produce marketing materials for use outside the Nordics.

Share your marketing materials with us!
We are always happy to receive marketing materials from you. We collect all the good examples of how the Nordic Swan Ecolabel is used for marketing purposes - as a source of inspiration and for use in cases.

Checklist for marketing materials

1. Choose the mark in your preferred language version.
   We recommend that you choose the UK version for international materials and your local language version for national materials, as the recognition of the local language brand name is much higher than the UK brand name.

2. Follow the golden rule.
   Balance the prominence of the Nordic Swan Ecolabel mark and your own logo and identity. It must be clear, which product(s) are ecolabelled, and who the sender of the communication is. See the golden rule on page 20.

3. Only use the mark in relation to ecolabelled products.
   If not all products in the marketing material are ecolabelled, it must be clear, which products are ecolabelled and which are not. The Nordic Swan Ecolabel mark must never be used in a way that is confusing or misleading to the recipient.

4. Consider including the licence number.
   We recommend that you consider to include the licence number in your marketing material to support your claims and to build credibility and increase transparency. Licence number can be placed as a foot note, where applicable.

5. Place the mark on your website.
   In order for customers/consumers to identify an ecolabelled product, the Nordic Swan Ecolabel mark should be placed on the product page on your website with a clear explanation of which – if not all – products are ecolabelled. To increase credibility and be transparent, we recommend that the license number is listed in the product description.

   Never alter the Nordic Swan Ecolabel mark or attempt to make your own mark.

7. Choose ecolabelled materials and printing companies when possible.
   Check if the printing company, you are using for your marketing materials has a licence and whether the materials can be a Nordic Swan Ecolabelled printed matter – if so, use their licence number on your printed materials.
2.0 General mark guidelines

2.4 Key benefits of following the guidelines

By using the Nordic Swan Ecolabel in your company’s marketing and communication, your product will be positively associated with making better choices for the environment.

With the Nordic Swan Ecolabel as proof of your environmental efforts, you will get an effective marketing tool with a brand that enjoys high credibility and recognition, and helps you to strongly position your product(s) towards consumers and professional buyers.

By launching this guide, our ambition is to make it easier for you as a licensee to create attractive and business-driven marketing and communication with the environment as a means of competition.
2.5 The golden rule

The Nordic Swan Ecolabel mark must never be used in a way that is misleading and/or creates doubt or confusion about which products are ecolabelled. This is essential to keeping the credibility of the mark and the value of the brand.

Consider two things when producing your material:

1. Always balance the prominence of the Nordic Swan Ecolabel mark and your own logo and identity.
   - It must be clear, who the sender of the communication is.

2. The placement of the Nordic Swan Ecolabel mark depends on whether all products in the marketing material are ecolabelled or only some of them.
   - In both instances, in order to increase transparency and credibility, you may consider to include the licence number, e.g. in a footnote or in a detailed product description. You can also choose to use the mark with the licence number below.

   **Option A**
   - If all products in the marketing material are ecolabelled, your certification can be the main focus of the advertisement and you can use the Nordic Swan Ecolabel mark in all relevant aspects, where you see fit.

   **Option B**
   - If only some products in the marketing material are ecolabelled, the Nordic Swan Ecolabel mark must be placed immediately next to the ecolabelled products.
2.0 General mark guidelines

2.6 Use of the Nordic Swan Ecolabel mark

We recommend to use the green mark with black or white top text. If placed on a photo or patterned background you can use the mark with a white circle behind for better visibility.

Go to the website of your local ecolabelling organisation to download files and general guidelines for how to work with the Nordic Swan Ecolabel mark:

**DK**: ecolabel.dk/retningslinjer

**SE**: svanen.se/regelverk

**NO**: svanemerket.no/regelverk

**FI**: joutsenmerki.fi/saannot

**IS**: svanurinn.is/fyrir-leyfishafa

**INT**: nordic-ecolabel.org/regulations

**Note**!
Always use the Nordic Swan Ecolabel mark as provided by your local ecolabelling organisation. Never make your own.
2.0 General mark guidelines

2.6.1 Using the Nordic Swan Ecolabel without top text

In the Nordic markets, where brand recognition is high, the Nordic Swan Ecolabel mark can be used in e.g. ads, billboards and commercials without the brand name top text.

However a few simple rules apply:

- Using the Nordic Swan Ecolabel without top text in the mark is only allowed in the Nordic countries.

- All products shown in the marketing material must be certified with the Nordic Swan Ecolabel.

- The brand name Nordic Swan Ecolabel must always appear close to the mark – e.g. as an integrated part of the headline or marked in bold in a sub headline.

For materials used in the Nordic markets only!

Nyhed! Tandpasta til børn

Nyhed! Svanemærket tandpasta til børn

Verdensnyhed: Svanemærket barnevogn.

Outside the Nordic countries, marketing materials should always use the mark with top text - even if the brand name is also included in the headline/subheader.

For materials used outside the Nordic markets!

Nordic design. Nordic Swan Ecolabel.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Lorem ipsum dolor sit amet, consectetur adipiscing elit.
2.0 General mark guidelines

2.7 Naming your ecolabelled products

When naming your ecolabelled products, it is important that there is a clear distinction between the product brand and the Nordic Swan Ecolabel.

You can
...refer to the product(s) as being Nordic Swan Ecolabelled,

You cannot
...use the term Nordic Swan or Swan (in any language) as an integrated part of a brand or sub-brand name.

√

Use the Nordic Swan Ecolabel in sentences in your product description:

(Product name) is certified with the Nordic Swan Ecolabel

(BRAND) is our range of products with the Nordic Swan Ecolabel.

Don’t:

Swan (BRAND) Jeans

(Brand) Swan Paint
How to communicate the benefits of the Nordic Swan Ecolabel

Stay true to the facts about the Nordic Swan Ecolabel and the claims for your specific product category.

You can find information about the claims in the criteria document for your specific product group which can be downloaded from the website of your local ecolabelling organisation.

Need help?

If you have doubts about how to best communicate the benefits of the Nordic Swan Ecolabel in your marketing material, contact your local ecolabelling organisation for input and guidance, see contact information on page 3.
2.9 Disclaimer, responsibilities and misuse information

Disclaimer
These guidelines have been developed by: Nordic Ecolabelling,
Box 38114, SE-100 64 Stockholm, Sweden
Tel.: +46 8 55 55 24 00
fnm@nordic-ecolabel.org
www.nordic-ecolabel.org

Nordic Ecolabelling or the local ecolabelling organisation grants permission to use the Nordic Swan Ecolabel in marketing materials from licensees and brand owners that have a valid licence.

The right to use the Nordic Swan Ecolabel in marketing material is only granted for the products listed in the licence certificate. Use of the Nordic Swan Ecolabel in communication of products not listed in the licence certificate is not allowed.

These guidelines are updated on a regular basis and replace earlier versions. The current version of the guidelines can be found at www.nordic-ecolabel.org/regulations.

Responsibilities
The licensee or brand owner is solely responsible for marketing and communication material. Also, it is the responsibility of the licensee and brand owner to ensure that the marketing and communication material comply with national standards and legislation.

The licensee or brand owner is responsible for ensuring correct use of the Nordic Swan Ecolabel, and for ensuring that subtext, licence number and claims are accurate.

Nordic Ecolabelling does not take responsibility for any other marks or claims on the product or service.

Misuse of the Nordic Swan Ecolabel
In case of misuse of the Nordic Swan Ecolabel, the following steps will be taken by the local ecolabelling organisation in the country where the misuse has taken place.

The misuse will be reported and logged into a register by the national ecolabelling organisation.

- The company misusing the Nordic Swan Ecolabel will be contacted – to investigate the misuse.
- Corrective actions will be required within a time frame. The time frame will depend on the type of misuse, the media/channel, and on the severity of the misuse.
- Follow-up actions will be conducted to ensure that the misuse has stopped or been corrected.

For more information please see section 2.7 in "Regulations for the Nordic Ecolabelling of Products”

Intellectual property rights:
The Nordic Swan Ecolabel name and mark is a trademark belonging to the Nordic Ecolabelling organisations.

Unauthorised use of the mark is prohibited and will be treated as an infringement of intellectual property rights.
This section provides specific guidelines for a wide range of different marketing materials.

3.1 Ads, billboards/outdoor
3.2 Commercials
3.3 Webpages and online shops
3.4 SoMe
3.5 Point-of-sale and In-store
3.6 Brochures/catalogues
3.7 Trade shows and fairs
3.8 Press releases, Annual reports/CSR reports
3.0 Use of mark in marketing material for products

3.1 Ads and billboards/outdoors

You can use the Nordic Swan Ecolabel in all types of ads - in magazines, newspapers, as advertorials and on billboards.

Note!
Placement of the Nordic Swan Ecolabel depends on whether all products in the ad/outdoor are ecolabelled or only some of them.

It must be unmistakably clear which products are ecolabelled.

- Always comply with the golden rule on page 20.
- Use the checklist for marketing materials on page 18 to make sure you comply with the guidelines.

Please contact your local ecolabelling organisation if in doubt. See contact info on page 3.
3.2 Commercials

You can use the Nordic Swan Ecolabel in all types of commercials and product videos – for TV, cinema, websites or social media.

Note!
Placement of the Nordic Swan Ecolabel depends on whether all products in the commercial are ecolabelled or only some of them.

It must be unmistakably clear which products are ecolabelled.

- Always comply with the golden rule on page 20.
- Use the checklist for marketing materials on page 18 to make sure you comply with the guidelines.

Please contact your local ecolabelling organisation if in doubt. See contact info on page 3.
3.0 Use of mark in marketing material for products

3.3 Websites

Placement of mark in your own website
You can use the Nordic Swan Ecolabel actively on your website, e.g., a subpage describing your certified product(s) and highlighting the benefits of the Nordic Swan Ecolabel - with a link to your national ecolabelling organisation.

To increase transparency, we recommend that you write the licence number in your product description.

Note!
Placement of the Nordic Swan Ecolabel depends on whether all products on the website are ecolabelled or only some of them.

It must be unmistakably clear which products are ecolabelled.

- Always comply with the golden rule on page 20.
- Use the checklist for marketing materials on page 18 to make sure you comply with the guidelines.

Please contact your local ecolabelling organisation if in doubt. See contact info on page 3.

You can ...
If you want to direct attention to your Nordic Swan ecolabelled products, e.g. on the front page, you can write (in text only):
"See our Nordic Swan Ecolabelled products here" and make a link to the relevant page.
3.3 Online shops

Placement of mark in your own online shop
Consumers look for the Nordic Swan Ecolabel when browsing products. You can help them by making the mark clear and visible in your online shop. You can either incorporate the mark in your packshots and product images or as a mark next to the product description and price.

In both instances, we recommend linking the mark to a subpage on your own site with more information about the benefits of your ecolabelled products(s) and/or to the website of your national ecolabelling organisation.

If your certified products are sold online by retailers not owned or managed by you, remember to provide your resellers with the Nordic Swan Ecolabel mark and encourage them to show the mark in relation to your certified products.

Remember:
It must be unmistakably clear exactly which product(s) are ecolabelled.
Therefore, placement of the Nordic Swan Ecolabel mark depends on whether all products in the webshop are ecolabelled or only some of them. See page 20 for guidelines.
3.0 Use of mark in marketing material for products

3.4 SoMe

Social media is one of the most powerful tools to engage today’s consumers. Make sure to use the Nordic Swan Ecolabel mark to attract the attention of the growing share of environmentally conscious companies and consumers.

Connect with us on social media!

- Remember to use national and international hashtags (see next page for overview). In that way we can follow your activities and interact to create more interest around your posts.

- You are welcome to post and link to relevant articles published by your local ecolabelling organisation.

- Follow us on SoMe (see overview on page 32) and find inspiration for your own postings on our websites.

Remember:
It must be unmistakably clear exactly which product(s) are ecolabelled. Therefore, placement of the Nordic Swan Ecolabel mark depends on whether all products in the post are ecolabelled or only some of them. See page 20 for guidelines.
3.4 SoMe: Guide to use of #

When making posts about your certified products, you are welcome to link to relevant articles on our national ecolabel websites.

Follow us on Facebook and Instagram - and get inspiration for your own posts or share our posts when they are relevant to your product messages and environmental sustainability focus.

Remember to “tag” your local ecolabeling organisation so we can help like and share your posts. Follow the guide on which tags to use for which markets.

3.0 Use of mark in marketing material for products

3.5 Point-of-sales/In-store materials

You can use the Nordic Swan Ecolabel in relation to your ecolabelled products on all types of instore/POS materials, such as displays, hangers and posters. Either as part of an instore promotion or to highlight your ecolabelled products on the shelves in a more permanent manner, thereby making it easier for consumers to find the products.

Please consider:
Walk the talk: If you find it necessary to produce instore promotional material, show your environmental responsibility by printing your material as Nordic Swan Ecolabelled printed material. Visit the website of your local ecolabelling organisation to find a certified printing company. Also please consider producing POS materials that can be used multiple times.

Remember:
It must be unmistakably clear exactly which product(s) are ecolabelled.
Therefore, placement of the Nordic Swan Ecolabel mark depends on whether all products in the display are ecolabelled or only some of them.
See page 20 for guidelines
3.0 Use of mark in marketing material for products

3.6 Brochures, catalogues, fact-sheets or sales material

Brochures and sales materials are often media where consumers and customers spend more time engaging with brands. Use the Nordic Swan Ecolabel mark to document your environmental efforts, for instance information about your Nordic Swan Ecolabel certification in a box next to your products.

In both instances, we recommend to have a page or section in the material with more information about the benefits of the Nordic Swan Ecolabel and your ecolabelled product(s).

Please consider!
Show your environmental responsibility by choosing a printing house certified with the Nordic Swan Ecolabel and make sure that your printed matters have the Nordic Swan Ecolabel mark. Visit the website of your local ecolabelling organisation to find a certified printing company.

Remember:
It must be unmistakably clear exactly which product(s) are ecolabelled. Therefore, placement of the Nordic Swan Ecolabel mark depends on whether all products in the brochure are ecolabelled or only some of them. See page 20 for guidelines.
3.9 Trade show & Fairs

Use facts and core messaging about the Nordic Swan Ecolabel, when you communicate your certified products on trade shows and fairs.

In both instances, we recommend to include more information about the benefits of your ecolabelled product(s) in your product specific materials.

Please consider!
Walk the talk: Show your environmental responsibility by choosing items with the Nordic Swan Ecolabel for your fair and booth when available. Visit the website of your local ecolabelling organisation to find certified printing suppliers and visibility materials. Prioritise materials that can be used multiple times.

Remember:
It must be unmistakably clear exactly which product(s) are ecolabelled.
Therefore, how you can use the mark in a booth and/or on a trade show item, depends on whether all products displayed are ecolabelled or only some of them. See page 20 for guidelines.
3.10 Press releases

Don’t forget to use the Nordic Swan Ecolabel in your PR activities. It is a competitive advantage as well as documentation for your environmental efforts – no matter whether the efforts relate to a newly certified product, meeting an increased demand for your environmentally friendly products or entering new markets or addressing the needs of new target groups.

If you want to use the Nordic Swan Ecolabel mark in a press release, the rules are simple: The press release must refer to your ecolabelled product(s). Furthermore, you must...

1. clearly state which product(s) is/are certified and,
2. list your licence number in a footnote in the press release.
3. attach the Nordic Swan Ecolabel mark to your press material.
4. send the press release for approval at your local ecolabelling organisation.

Additionally, we recommend to include:

- A fact box on the benefits of your ecolabelled products - either in the press release or on a sub-page on your own website.
- A link to the website of your local ecolabelling organisation so the recipient can find more information about the certification.

Need input for your press release? Positive effects from the certification such as increased sales, a more efficient production process or increased employee satisfaction could provide interesting angles for your press release.

Contact us if you want to cooperate or need input for a message relating to your certification.
Annual reports/CSR reports
Investors, customers and consumers look to annual reports for accounts of companies’ environmental efforts.

We recommend to have a page in your report with information about the benefits of the Nordic Swan Ecolabel and your ecolabelled product(s).

Please consider!
Show your environmental responsibility by choosing a printing house certified with the Nordic Swan Ecolabel and make sure that your printed matters have the Nordic Swan Ecolabel mark. Visit the website of your local ecolabelling organisation to find a certified printing company.

Remember:
It must be unmistakably clear exactly which product(s) are ecolabelled. Therefore, placement and usage of the Nordic Swan Ecolabel mark in annual reports depends on the messages communicated. See page 20 for guidelines.
