Overall principals concerning criteria development or the position of Nordic Swan Ecolabel	Either orientation by NE and pass mandate on to NEB member Or orientation by NE	Either decision making body Or Orientation by NE	Depending on the principal issue it is either NEB to decide or a matter allocated from NEB to NE

Decision mandate and information flow Nordic Ecolabelling and Nordic Ecolabelling Board

The Nordic Ecolabelling Board's work is governed by "Arbetsordning för Nordiska Miljömärkningsnämnden" and Nordic Ecolabelling's work is governed by "Mål & principer för det nordiska miljömärket Svanen" both documents are regularly revised by the Nordic Council of Ministers.

The Nordic Ecolabelling board is the owner of the Nordic Swan Ecolabel scheme. It is the overall decision-making body on all areas concerning criteria and environmental position for the Nordic Swan Ecolabel (see § 1 in "Arbetsordning för Nordiska Miljömärkningsnämnden"). However, The Nordic Ecolabelling board has delegated the some of the responsibility for the criteria to Nordic Ecolabelling (decision date 15th of December 2003, 7th November 2018, and 17th of March 2021), with the certainty of being oriented (se p. 2-3) but has always the ability to object to a decision Nordic Ecolabelling have taken in the delegated responsibility.

The Nordic Ecolabelling board strives to reach an agreement and decide unanimously, but has a mandate to decide on a qualified majority (4 countries in favor and one against)

The National boards play a significant role in giving input on the evaluations and the consultations at an early stage of the product revision and development process.

The Nordic Criteria Management Group is the group in Nordic Ecolabelling that primarily manages everything related to criteria and requirements. They are the direct connection to National Boards and the Nordic Ecolabelling Board. However, certain cases where the Nordic Criteria Management Group cannot reach an agreement, the case will then be discussed in Process Owner Forum, which gives its recommendation for a decision to the Board of Directors, before the case is either decided on in Nordic Ecolabelling (delegated mandate) or goes on for decision by the National Boards and the Nordic Ecolabelling Board.

National board composition

Composition of National Boards

Denmark
